DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 112-122, drawn to a phage display library.

Group II, claim(s) 124-135, drawn to a method for preparing a discontinuous library.

Group III, claim(s) 123 & 136, drawn to a vaccine and a method for vaccinating a subject against an organism.

Group IV, claim(s) 137-143, drawn to a method for preparing a conformational peptide.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claimed phage display library for displaying a continuous complete pepscan of over lapping peptides comprising a plurality of fragments of a complete digest of the genome of an organism, a plurality of phages each containing one of said fragments such that each phage displays a foreign peptide coded by said fragment and wherein said fragments are overlapping was known in the art as taught by de la Cruz et al. (Journal of Biological Chemistry, 1988, 263(9): 4316-4322) and therefore is not a contribution over the prior art.

A telephone call was made to Mr. Mark Friedman on 2 August 2000 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Friedman requested the restriction requirement be mailed.

Art Unit: 1655

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BJ Forman whose telephone number is (703) 306-5878. The examiner can normally be reached on 6:45 TO 4:15.
